HSBC is one of the world’s leading international banks.

We serve more than 40 million customers in 64 countries and territories.

We support around 1.4 million businesses, providing them with growth finance and helping them trade and invest overseas and raise capital.

Every day we help people manage their money, buy their homes and save and invest for the future.

We have around 197,000 shareholders in 130 countries and territories.

Our 235,000 employees speak 144 languages.

In 2018, we facilitated USD740 billion of trade globally.

In 2019, 89 per cent of retail banking transactions were digital.

We continue to adapt to help our customers thrive in the modern economy.

We are investing in growth and technology, in areas including digital banking and blockchain.

We have cut carbon emissions per full-time employee by 35 per cent since 2011.

Since January 2017, we have provided USD52.4 billion in sustainable financing and investment.

And in 2019 HSBC funding helped more than 800,000 people improve their financial and employability skills.

We also believe that economic growth must be sustainable.

Our commitment to sustainability means supporting our employees, too.

We completed 6.5 million hours of training in 2019 – helping us serve our customers better, every day.
